

# GREENHORIZONS PRODUCT DATA SHEET

## PENN A-4 CREEPING BENTGRASS

Penn A-4 Creeping bentgrass is an extremely dense, high-maintenance bentgrass known the world over as a superior performer for true, fast putting green surfaces. The cultivar of choice on many championship courses, Penn A-4 has remained one of the most highly rated bentgrasses in the NTEP (National Turfgrass Evaluation Program) field trials for heat & cold tolerance. The aggressive nature of GHG Penn A-4 makes it extremely desirable on greens that receive intense play and traffic is an excellent competitor against weeds, especially annual bluegrass.

### IDEAL APPLICATIONS

- Golf course greens

### DETAILS

At Greenhorizons, our GHG Penn A-4 Creeping Bentgrass is maintained at 3/16" on USGA specification rootzone mix at a facility in Southwestern Ontario that is central to our customer base to ensure timely shipping of product.
